C³
cont.
iii) a fatty alcohol component in an amount between about 5% to about 40% by weight of said lotion;

iv) an emulsifier component in an amount between about 1% to about 30% by weight of said lotion; and

v) a skin conditioning component comprising between about 5% to about 50% by weight of said lotion, said skin conditioning component including glycerin in an amount between about 1% to about 10% of said lotion.

B2
46. (Amended) A method for forming a paper product for drying and conditioning the skin of a user, said method comprising:

forming a web from at least one furnish containing fibers and water;

through-drying said web to remove water therefrom; and

thereafter, treating said dried web with a lotion such that said lotion has an addition level of between about 1% to about 15% by weight of said paper product, said lotion comprising:

i) water in an amount between about 10% to about 75% by weight of said lotion;

ii) an emollient component in an amount between about 1% to about 15% by weight of said lotion;

iii) a fatty alcohol component in an amount between about 5% to about 40% by weight of said lotion;

iv) an emulsifier component in an amount between about 1% to about 30% by weight of said lotion; and

v) a skin conditioning component comprising between about 5% to about 50% by
